Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 1635

***Reexamination***

1. The reply filed on 1/8/02 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): In the Official Action mailed 4/9/01, Applicant was notified on pages 2-5 (specifically, subject (5) on page 3 and subject (9) on page 5) that the new Sequence Listing introduced new matter since no support could be found for SEQ ID NOS:9, 10, 17 in the specification as originally filed. Applicant did not correct this in the response filed 1/8/02.

Applicant wrote in the response (pages 2-3) that "these corrected sequences are identical to SEQ ID NOS: 1, 2, 4, 11, 12, 13 and 14 , respectively of recently issued U.S. Patent No. 6,280,935, which was also examined by Examiner Shibuya. Accordingly, they should be found acceptable by the Examiner in the present application." However, this Application is not a re-examination of 6,280,935 but is instead a re-examination of U.S. Patent5,654,413. Applicants' arguments are not relevant to the instant specification. Applicant has thus not complied with the Sequence Rules set forth in 37 CFR 1.821 through 1.825. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
